2 Are there any visible cracks in the walls of your home either internally or externally? If YES please provide full details:

If you have provided details above is any of the cracking reflected on both inner and outer walls?

3 Is there any evidence of distortion or settlement or of any other movement to your home? If YES please provide full details:

4 Has your home been extended since it was originally built? (e.g. by the addition of any lean-to, conservatory, or an additional storey or by any extension?) If YES please provide full details including when the extension was built:

5 Has a neighbouring property ever suffered from subsidence damage? If YES please provide full details:
6 Have the drains ever been tested?
If YES please provide full details of any remedial works which needed to be carried out and when this was done. If a report is available please provide a copy.

7 To the best of your knowledge is the building constructed on a concrete based foundation?
If NO please provide details of the type of foundation involved.

8 Is there a report by an Architect, Surveyor or a Consulting Engineer, including any pre purchase reports, on
- your home?
- the risk of subsidence?
- the nature of the ground?
If you have answered YES, please provide a copy of the report(s)

9 Do any rainwater downpipes discharge directly onto the ground near to your home?

The above facts are true and complete and are to be read in conjunction with the statement of fact.
