

Working at Covéa Insurance

What it's really like

“I'm doing something that I love every day”

My Career at Covéa Insurance

I joined Covéa Insurance in October 2013 on the Graduate programme as a Strategic Support Co-ordinator. I was part of a small team who were working towards launching Provident Insurance as a Direct to Consumer business. I was given flexibility to work on various aspects of the project helping to grow my knowledge of a variety of subjects.

As I wasn't sure exactly what direction I wanted my career to take, having the opportunity to explore different aspects and job roles within the business allowed me to discover where my skills lied.

I'm now part of a web development team in the IT function and my role involves maintaining and creating new functionality for the Provident Insurance website.
