

# Holly

BEHIND OUR TEAM WEB GURU IS  
OUR FUN-LOVING FESTIVAL GOER  
WHO BREAKS THE IT MOULD.

Holly is our talented, tenacious techie who not only leads an IT innovation team but also leads our very successful netball team – a born leader on and off the court, it's her passion of working with people and her commitment to collaboration that ensure she excels in all she does.

“Covéa Insurance are fantastic at providing their employees with plenty of opportunities to grow, learn new skills and progress in their career. In the four years that I've been here I've been lucky enough to work in several departments in a range of roles, allowing me to learn and develop skills that I never knew I had. I currently look after an Innovation team in the IT department and we're responsible for looking at how we can introduce new technology to Covéa Insurance and how we need to adapt to the ever-changing digital world. It's exciting and new and really supports my creative side. Alongside the vast amount of opportunities, it's also the people and the support at Covéa Insurance that mean I'm doing something that I love every day!”
